

The First Choice For Wholesale Firearms, Ammunition, Reloading and Accessories

For 40 years, Crow Shooting Supply has taken pride in providing our partners with the best possible logistics and freight benefits. Even through recent times when we've seen 100% increases in freight costs, we've done our best to absorb those costs to keep you and your business whole.

Unfortunately, it doesn't appear that there is any good news on the horizon regarding freight rates as we continue to see increases. Therefore, we're writing to inform you of a policy change that we hope will be temporary. Like many of our competitors, we will be implementing a \$4.50 fuel surcharge per order, effective immediately.

This decision was not made without great consideration and discussion. We want you to know that we appreciate your partnership, and we are in business to take care of you! You have our commitment to keep this policy change top of mind in hopes that we can remove the fuel surcharge as our rates decline.

Please feel free to reach out to me directly if you have questions or concerns regarding this policy. We greatly appreciate your business.
